Dear Yabbula

It seems a long  
time since I last heard from  
you. (Except to send the Hawaiian  
lines). I do hope you have  
not had to go to your mother's  
again because of another "slight  
stroke"? Do let me know where

3/ You are (+why) - If not "top secret"!)

Spurred by their added 7 miles from Hobart

And any of your news (ie "abos" etc). We had a "heavenly" <sup>ONE</sup>

Cool day - (on Sat) But it is hot again today, I am so weary of heat + the humid kind especially. <sup>hair</sup> says she likes it! What she is a "tropical weed"

I replied - I am an Antarctic sea-weed (suffering from heat-exhaustion)

Everyone is "on the <sup>move</sup> ~~move~~ now-a-days. I had a card - from my Hobart cousin from "Seam" (I was born in Queen Victoria's reign.) He + his wife + son were going to England & they had <sup>been</sup> within 7 miles of Alice" (meaning in plant)
