

D. Evans, Superintendent
said I might like this for him.

Home Hut

P.S. ^{orange} Bird Regions, Native Flora Reserve

The Wattle - everlasting, Alice Springs
(Some 37.) bluebells are 20.9.58
looking very charming at present. ^{Not 20.9.58}
See them!

Dear Sir Galahad Turpare.

I had a letter from Nai
yesterday - & in it she said (inter
^{alia}) she had met you that
you had passed your exams!
(At which I am, of course
surprised) & that you would
be returning ("to Darwin") soon.

I know you said it would
be via "The Allas" - & I don't
want to miss you when you
come to the Reserve to see
me. I mean have a chat. (The
"seeing" will be more trying than
ever! How I detest what a pe

2
does to one. (Even hands.)

(more especially if one has
been forced - for 3 years - to
be a "tough guy" - with
bureaucrats & their underlings)
However

Anyway I look forward
to a long chat:

If you care to have a
meal - preferably the evening
one, because it is nicest
here then - I have a tin
of lamb's tongue (in a fridge
at a store) "ready for you!"

And can recommend
them! - As I had two Science
Congress women - (both bore)
here for "dinner" ("hoph tea"! last
Sunday. - If you don't want
to do that - have a cuppa or

Several.

I do wish you were here
next week

to take the Parliamentarians
to see all the things "Welfare" would
not want them to see!!!

All they will see will be
"eyewash"!!

Under Hasluck's & Piese's,
& Ted Evan's

And other "Welfare" mot
of that

I wish you could have been
at Court on Monday too, to
hear the Albert Haymatzira
"Crucifixion"!

Ours a "civilized" & "Christian" culture?
The aim is to
"make them LIKE US" (!!!) - Say
(full-hoods) Hasluck.

(Or more likely the "Evan's" -
beneath the "Joseph" !!)
called minor territories.

at start
I only meant to give you
my ("Silent number") tel. no

But I have rambled on -
Knowing you also (in many
ways) share some of my

views. And I am looking forward
greatly to hearing of your
news + comments. I have
hope.

Yours sincerely
Olivell. Pmt

P.S. I have met the new
Director of Health! (Dr Webb)

N.B. So now, you are only
an "also ran" ~~!!!!~~ (He is "a dear")

(He was very unwell indeed
+ yet gave me a long
interview + I prescribed for his
paleness (+ rings under eyes) !!!
And was only told (by Sec.) afterwards - lions

over an
hour
thinks

(Gastro-enteritis)
Olivell was at time
Olivell well
