

From Zabbula (no political implication in red biro!) 24.10.69

To Zabbula
Dear grandson John

When I recover from a three sheet letter (from you) I'll write!

But at present I am too busy "backing" ^{up} ^{the} ^{type} Brennan - for his Ombudsman plan ^{chiefly} (I hope to be a "scrutineer" at Gillen Primary School (for him) purely for that (minor) reason but mostly to see what the Americans are doing ("underground") with the mixed-blood ^{at that school} (in their suburb) ^{with the} Space Base one (families of Space Base people

2 (living on site of Connellan's old
Aerodrome - where there has
been (also) built the Gillen
Primary School -

I enclose ^{copy of} my letter to
"Cen Advocate" - but they only
published about $\frac{1}{3}$!!!

10 AM
Have been interrupted here
to have a telegram from "Tiger"
appointing me one of his
scrutineers - read to me from
P.O. after
election. I am going to try to
have formed a group confined
to "dinkum Aussies" - viz the
Independents (full bloods) ^{only} & "Europeans"
(include "whites" like my self.)
of several generations
behind their migrant ancestors.
(You must join, Yabbula)

3. I feel furious that we "dinkum
missies" are allowing our
country to be (silently & bloodlessly)
invaded by Americans

It. No one seems to realize
it. Or care!

"They bring in MONEY - Say
the majority"

Re that Warrabri affair.
I am as perturbed as you
are - + (after the next few
days) will try to get in touch
with Rev Reece Baptist Minister
for 10 years + ask him to
write me a confidential letter
about it. Why not you do
same. (The Baptists are sincere
people. I like Rev. Fleming
of Yuendumu

I can't spare my copy - but
get & read carefully

N.T. News of Oct 20^m

Don't forget if it is in that
that one of the (Waileri)
young men resented being
called "a larrikin" -

If moral, I don't wonder!

It means he has sexual
relations with "wrong" females,
"skin"

When will people realize that
aborigines use our words
in a different sense!

The article proves that they
don't (a policeman) but he would
certainly slow down the rumrunners
and cause "larrikin elements" to think
twice before they swung a punch!!!

must

a "tearing" sheet

LET US CONTINUE TO BE A NATION THAT CALLS SPADES "SPADES", FEARLESSLY

TO THE EDITOR,

Centralian Advocate

Dear Sir,

The following small piece of autobiography is in itself quite interesting to your readers but is written solely, to explain this letter and perhaps, lend a little weight to it?

I have no political affiliations: and am a "dyed in the wool" Van Diemanslander and Tasmanian - (of partly 1824 and 1837 arrivals (non-convict)).

I visited the Northern Territory in 1930 because of what we had done to our indigenous race in Tasmania.

We exterminated them, and because of what the Northern Territory had done and was still doing to theirs:- instead of trying to slowly intergrate them -

Recently, I heard, - whether it is true or not I do not (yet) know, that the American Space Base families about to live in virtually a suburb of their own (to be called "the Pentagon" perhaps?), and having amenities that most Alicians have not, - are objecting to their children having to attend Education Department Schools where there will also be some student aborigines as well as our own majority.

This letter is an appeal to have such a point of view, and that by foreigners - indignantly repudiated by the Government Departments involved. And to keep their integration policy unchanged.

Those Space Base people have two alternatives open to them. To have (American) governesses in their homes, as some Station people do have governesses or send their children to their schools in U.S.A.

Our aborigines, we need - and ^{that} sternly to remind the Space Base people, are not an introduced race (like they did their Negroes) - but are indigenous like their own (oil millionaires) Amerindians.

(If there be any full-bloods, of those, left?)

Were I half my age I would like to have had an Australian Scholarship to study freely the relative treatment of Ameriddians, Negroes (so-called), and "whites" in the U.S.A.

So-called The Space Base is solely in America's interest, - but camouflaged as "a protection" to Australia from Communist Countries, - when I feel sure, neither Soviet Russia, nor Communist China desire to invade our, and the aborigines' Australia.

O.P.
